When a story is worth telling, it should be told with STYLE...

I'm Lee, an illustrator and designer. My vision is BOLD, and so is yours. Let's talk about bringing your story to life...

ANIMAL MASCOT

Character Design Collection

See More At ★ leemprescott.com ★

**What makes a story
relatable is personality
and charm...**

**The playful touch of a
cartoonist will make your
story STAND OUT and
breath life into your
characters.**

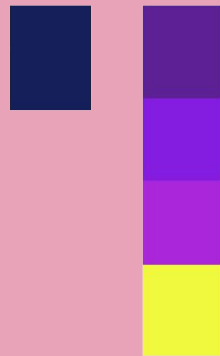

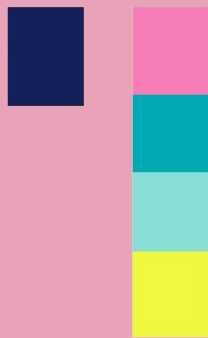

This limited portfolio serves to showcase one of my unique styles and my eye for design. The animal mascot collection draws inspiration from animorphised cartoons, mascots and video game characters, such as Animal Crossing. All sporting bright colors and expressive personalities.

As a cartoonist, I have the freedom to push a concept further than a realistic style can deliver.

**An aesthetic that's endlessly flexible all while
retaining a distinct style.**
